SUMMARY

Software Engineer with 8+ years of professional technical and cross-functional experience, combined with hands-on full-stack development skills in Next.js, React, Express.js, and MongoDB. Proven track record of solving complex problems, coordinating across teams, owning deliverables, and meeting tight deadlines. Brings strong process discipline, fast learning ability, and stakeholder communication to engineering teams.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, DaisyUI, HeroUI

Backend / DB: Node.js, Express.js, REST APIs, MongoDB

Auth & Tools: Better Auth, JWT, Git, GitHub, VS Code, Vercel, Context API

PROJECTS

PromptForge – AI Prompt Marketplace [Live](#) · [GitHub](#)

Next.js | React | Node.js | Express.js | MongoDB | Tailwind CSS

- Built a full-stack marketplace where creators publish, discover, and monetize AI prompts for ChatGPT, Midjourney, Claude, and Gemini, with authentication and a subscription-based premium content model.
- Architected the platform end-to-end — frontend, backend, API integration, and database schema design.

MediQueue – Tutor/Doctor Booking Platform [Live](#) · [Client Repo](#) · [Server Repo](#)

Next.js | Tailwind | HeroUI | Express.js | BetterAuth | MongoDB

- Built a production-ready appointment booking platform with secure authentication, payment integration, and SSR/ISR for fast loads and strong SEO.

Tile Gallery – Modern Gallery Platform [Live](#) · [Client Repo](#)

Next.js | Tailwind CSS | Express.js | MongoDB

- Developed a responsive, tile-based gallery with dynamic image rendering and full CRUD content management via REST APIs and MongoDB.

PROFESSIONAL EXPERIENCE

Technical Operations Specialist (Cross-Functional Coordination) – Manufacturing & Buying House Operations 2018 – Present

- Diagnosed and resolved complex technical issues under tight deadlines, coordinating across design, quality, and production teams to deliver projects on schedule.
- Led end-to-end project execution for international clients — managing requirements, approvals, and revisions independently.
- Served as primary technical point of contact for international clients, translating requirements into execution plans — a skill directly transferable to client-facing engineering roles.

EDUCATION

- **MERN Stack Web Development** — [Programming Hero](#), 2026
- **Higher Secondary Certificate (HSC)** — Satkhira Government College
